SUBJECT: Letter of support

The Government of North Macedonia, through the Ministry of Agriculture, Forestry and Water Economy has all along been demonstrating the wish to develop the domain of APICULTURE as commodity chain, by putting up strengthened cooperatives of beekeeping, improving the processing of bee products and supporting marketing strategies.

Willing to strengthen this important activity the Ministry continuously supports the beekeepers financially enabling them to strengthening their production capacities, as well as to increase the standards and quality of production (based on the National
